The provision for Hong Kong profits tax has been calculated by applying the applicable tax rate of 17.5% (2003 - 17.5%) to the estimated assessable profits which were earned in or derived from Hong Kong during the period.

Tax on the profits of subsidiary companies operating overseas is calculated at the rates prevailing in the respective jurisdictions in which they operate, based on existing legislation, practices and interpretations thereof

No provision for tax is required for the associates or the jointly controlled entity as no assessable profits were earned by these associates or the jointly controlled entity during the period (2003 - nil).

Deferred tax expenses/(income) have been calculated by applying the rate that is expected to apply in the period when the asset is realised or the

The calculation of basic earnings per ordinary share is based on the net profit from ordinary activities attributable to ordinary shareholders for the period of HK\$127.5 million (2003 - HK\$15.8 million) and on the weighted average of 4,568.5 million (2003 - 2,792.8 million) ordinary shares of the Company

in issue during the period

The calculation of diluted earnings per ordinary share for the period ended 30th June, 2004 is based on the adjusted net profit from ordinary activities attributable to ordinary shareholders for the period of HK\$127.2 million as adjusted for the deemed changes in the Group's interest in the listed subsidiary company and on the adjusted weighted average of 6,129.9 million ordinary shares of the Company that would have been in issue during the period assuming (i) all outstanding convertible preference shares and optional convertible bonds of the Regal group were converted into ordinary shares of Regal Hotels International Holdings Limited at the beginning of the period; and (ii) all the 1,990.0 million convertible preference shares of the Company were converted into the same number of ordinary shares of the Company at the beginning of the period. The exercise prices of share options of the Company and Regal outstanding during the period are higher than the average market prices of the respective ordinary shares of the Company and Regal and, accordingly, they have no dilutive effect on the basic earnings per ordinary share.

The calculation of diluted loss per ordinary share for the period ended 30th June, 2003 was based on the adjusted net loss from ordinary activities attributable to ordinary shareholders for the prior period of HK\$33.4 million as adjusted for the deemed changes in the Group's interest in the listed subsidiary company and on the adjusted weighted average of 5,768.5 million ordinary shares of the Company that would have been in issue during the prior period assuming (i) all outstanding convertible preference shares and convertible bonds (including optional convertible bonds) of the Regal group ere converted into ordinary shares of Regal at the beginning of the prior period; and (ii) all the 3,450.0 million convertible preference shares of the ompany were converted into the same number of ordinary shares of the Company at the beginning of the prior period. Details of the termination of the SP Agreement were disclosed in the joint announcement of the Company dated 8th Juné, 2004
